About Me

I am an undergraduate student in the College of Liberal Studies at Seoul National University, majoring in **Statistics & Computer Science and Engineering**. I enjoy studying rigorous theoretical concepts in statistics and aspire to apply this foundation to work with real-world data and build databases with greater precision.

My strengths include a quick learning ability, attention to detail, and a strong sense of responsibility, all of which drive me to contribute effectively to both academic and practical projects.

Education

Work Experience

Portfolio

Activities

A comprehensive list of projects, bootcamps, and leadership experiences.

Projects & Research

- **Ambient AI-based Classical Music Instrument Recognition** (Jan 2025 – Feb 2025)
Real-time instrument classification modeling.
- **3D Platformer Game 'Black & White Rat' Development** (Sep 2024 – Dec 2024)
Managed the project lifecycle and development of a 3D platformer game.
- **RUBIS: Adolescent Mental Health Care AI** (Dec 2023 – Feb 2024)
Handled Feature Engineering & Frontend development using digital daily-life log data.
- **Emotion-based Diary Analysis & Comfort Quote App** (Jan 2024 – Feb 2024)
Developed an application recommending personalized quotes based on sentiment analysis.
- **Drama Character MBTI Prediction Modeling** (May 2022 – Jun 2022)
Built a classification model based on character dialogue analysis.
- **Literary Style Similarity Analysis & Open Archive** (Mar 2022 – Apr 2022)
- **Traffic Signal Distribution Modeling for Gwanak-gu** (Sep 2021 – Dec 2021)
Optimized signal timing to resolve traffic congestion at major intersections.

Education, Awards & Certs

- **SNU Growth Hackers (Data Analysis Club)** (Mar 2025 – Dec 2025)
- **SQLD (SQL Developer) Certification** (Jul 2025)
- **Ambient AI Bootcamp** – SNU GSDS (Jan 2024 – Feb 2024)
Awarded Grand Prize (Best Project)
- **Google ExploreCSR Program** – SNU GSDS (Dec 2023 – Jan 2024)
- **AI Curriculum Completion** – Modulabs (Dec 2023 – Feb 2024)
- **1st SKYCC Hackathon** – Finalist (May 2023)

Teaching & Leadership

- **Teaching Assistant, Logic Design** (Mar 2024 – Jun 2024)
Dept. of Computer Science & Engineering, Seoul National Univ.
- **Youth Science Class Mentor** (Aug 2023)
College of Engineering, Seoul National Univ.
- **Academic Mentor, 'Basics & Applications of Math'** (Mar 2023 – Jun 2023)
College of Liberal Studies, Seoul National Univ.
- **Dream Mentor** – Daekyo Noonnoppi (Jan 2023 – Mar 2023)
- **Supporter (1st Cohort)** – Blue Tree Foundation (Sep 2022 – Dec 2022)
Youth Violence Prevention NGO Activities.
